Date: January 15, 2014 (Christmas Present for Mom December 25, 2013)

Description: Redone closet with French Cleat System
She can move thing to just about any spot she like. All the walls are done this way.

Here is what the French cleat System.

A French cleat is way of securing a cabinet, mirror, artwork or other object to a wall.

It is a molding with a 30–45-degree slope used to hang cabinets or other objects.

French cleats can be used in pairs, or with a cleat mounted to the wall and a matching edge cut into the object to be hung.
